NORMALS TO RUN ON FORMER BASIS

Appropriation Allowed for 1922-1923 Will Form Financial Policy.

[RE ASSOCIATED PRESS]

Madison—Confronted with a shortage of funds estimated by its secretary to amount to \$1,000,000 for the coming year, the state board of normal regents at its meeting Tuesday voted to continue in force the operation of Wisconsin's nine normal schools on the basis of an emergency allowance allowed for the year 1922-1923.

Failure of the 1923 legislature to grant an appropriation for the coming biennium forced the board to consider the policy to be followed in spending the \$1,300,000 available for the coming school year. Action was taken to bring the whole situation under review, and the regents will determine whether or not a special session of the legislature will be needed to assure operation of the schools.

Clough Gates, regent from Superior, quoted the governor as advising him that the normal schools should operate as in the past until an emergency arose.

When that time came, Governor Blaine is said to have indicated he would take action to re-instate the schools.

Walter Kneel and daughter, Agnes, spent several days last week with the Burchard family at Rock.

Mrs. Norman Johnson, who has been spending several weeks with her parents, Mr. and Mrs. W. L. Beach, returned to her home in Chicago Monday. Mr. Johnson came Saturday and accompanied her home.

On her way she will stop for a week at Victoria, B. C.

Joe Bechmann, Milwaukee, is visiting his cousin, Mrs. F. E. Wicker.

Mr. and Mrs. Frank Speth and Mr. and Mrs. Paul Kuhns recently motored to Mikana, northern Wisconsin, where they spent several days boating and fishing at Deer Park.

The resolution by Mr. Gates set out that "it now seems feasible to continue in full number the teaching positions at all schools and further to carry out most of the contract rules with the teachers."

RIGHT TO REORGANIZE.

A resolution introduced by Miss Little Stearns, Milwaukee, if adopted would give the incoming president of Milwaukee normal authority to re-organize departments in that institution and make changes in the teaching staff. This was referred to a committee.

Normal school regents indicated at the meeting that they had little apprehension about their ability to obtain sufficient funds to assure continued operation. They expressed the opinion that Governor Blaine, through a call for a special session, or through the emergency board, would take care of all actual needs.

CIRCUS IN EARLY WITH NO PARADE

Ringling's Draws Crowd When Big and Little Tops Are Going Up.

Ringling Brothers and the Barnum & Bailey circus and all that impaled arrived in Janesville along about 4 o'clock this morning. Dwellers in the neighborhood of the fair grounds were aroused about dawn with the noise of putting up the big top, setting the animal cages and putting the show in shape for the performances this afternoon and evening. The show came from Rockford, where it gave a performance Monday after a week in Chicago. It will go from here to Milwaukee tonight.

There was a good deal of sadness among the clowns when the news came that Al Mafaco, one of the oldest merry makers in the business, was dead at his home in New York. He was 72 and had been a clown for 68 years.

Circus and No Parade. No parade was given this morning nor has one been given by this circus in three years. Interference with traffic in the larger cities, the immense amount of material to be handled, a human regard for the horses and humans with the show, to say nothing of the factors of late railroad strike and long distances to the show grounds—all these things and others led the management to abolish the street cavalcade three years ago.

This is the first visit in three years of Ringlings. Thirty tents of varying size have been erected at the show grounds, ranging in size from the massive big top, accommodating 16,000 people, down to the private dressing tops provided for such stars as the clowns who are the Leiters, the Colins, Franks, comedians, Alf Loy, the Nelson girl acrobats and others. They all nestle together at the grounds for all the world like a clucking hen and its brood of chicks, and look just as attractive as they did when Grand Dad was last and carried water to Jim.

Visitors See Show Go Up. As Janesville's grounds was transformed into a tonic city Tuesday morning through organized effort of hundreds of skillful hands, there poured into the city through the morning hundreds who were brought here through the age-old attraction of the circus. Some adults came "because their children wanted to see it" and others—many of them gray-haired—without children, came to "see it."

Men, women and children gathered on Milwaukee street during the morning and watched the steady procession of wagons carrying animals, platforms, canvas and other paraphernalia, on the way from the Pabst buildings where it was moved to the fair grounds. Family picnics were held in court house park at noon and restaurants were crowded.

Many bemoaned the passing of the parade which has been a vital part of the coming of the circus.

Get Up Early.

A lot of folks got up earlier Tuesday than they have in many weeks and were on hand to see the tents rise towards the skies and watch the rhythmic tattoo of the hammers wielded by crews of negroes as they buried the posts deeper in the earth; hoist the posts and roll and lace the canvas, and hoist it upward. The pre-dawn scenes were not without humor. One young colored boy reported to Captain Semple, local chief of coast guard service, that he had heard threats to "fill the prohibition agents full of lead."

"If they fire on you, return it," Captain Read ordered.

Ribbons for Fair in C. C. Window

Scores of prominent ribbons for Janesville's Big Fair and Livestock Exposition, Aug. 8 and 9, will be displayed in the window of the Chamber of Commerce office, East Janesville street.

Entries are being received daily and all indications point to the most successful fair in the history of Janesville, with a crack racing card and unrivaled exhibits.

The first exhibition, scheduled this year is said to be of a high caliber. Six sets will be presented daily during the fair, perfer, with performances afternoon and night. The other or usual fair attractions will also be on the grounds.

It is estimated that about 100,000 people will be disposed of by the 16 major league clubs this season in addition, many more thousands will be used up by the minor leagues and baseball.

Canada. Surely the business of manufacturing baseballs for the professional clubs is a profitable one.

Five Hundred Perform. Over 500 men and women performers—riders, acrobats, aerial performers, wire-walkers, equilibrists, etc., contribute their quota of skill to the general ensemble and some five score clowns furnish the funny side of the circus. Much that is new to Janesville is presented and there are three new clowns in bouncing activity all over the tent. The grand stand and reserved seat sections are equipped with Jumbo electric fans and the entire affair bears the Ringling hallmark.

BIG TANK BURSTS; LOCAL MEN BURNED

War Implement Back Fires at Camp Douglas—Janesville Men Expert.

ISCRITTO AL GAZETTA

Camp Douglas—While on parade Sunday, a tank of the Janesville corps became hot, back fired and exploded, the emergency gas tank, causing considerable damage and burning Capt. Rauch about the hands so seriously that he will not be able to use them for a week. Corporal Schuler, who had a finger broken last week, had his face burned, but not seriously.

Instruction is going forward rapidly under Captain Barnes, regular army tank instructor. The man could now qualify as tank drivers, machine gun operators, 37 mm gunners and mechanics. No infantry drill is given this year. Passes to and from camp are issued more regularly than last year.

Corporals Shuler, Troon and Shaeber had their squad broken up to fill in other squads, the members of which have gone home.

"Major" Martin Happy.

"Major" Martin Goodsell, tank C mascot, regained partial use of his hands after an operation from Colonel Williams. An order had been issued barring mascots from wearing uniforms like those of officers to halt impersonation. Colonel Williams gave the youngster the gold leaf last year.

The first squad, under Corporal Williams, has joined the "Cats" now. Wimmers is the big mow.

The count-down is three meows.

Tony Calumet has written a song about Sergeant Jackson and Corporal Rauch to the tune of "Mr. Gallagher and Mr. Shean."

Signed Payroll Sunday.

All men signed the payroll Sunday. Some are having a good time imagining what they will buy.

Tony Calumet says, "If I could get one job at Western and Center aves., I'd think I was in heaven."

Pvt. Frank Graves draws half the mail.

Second Cook Peppin would like to hear from someone who understands messages conveyed by stamps placed at different angles.

"Pop-Kick" Ryer wants a book-keeper to handle details. Some men insist on all K. P. and policing.

Wanted to See Beans—Grown.

Before leaving for home, Pvt. Lenz said, "I may go back to the land where they only grow beans."

Capt. Shurtliff's daily schedule consists of rising in the morning, washing, eating, re-reading letters, dreaming, waiting for the mail, reading, eating again, writing, reading again and a little writing; then a new letter with the afternoon mail, more reading, writing, supper, writing, and bed.

Capt. George Bulbert is doing weight training for the 100-yard dash.

Washington—The honorable, august and distinguished members of the United States senate are worried.

Unless someone puts an end to the worry there's going to be a flock of prematurely gray hair in the solemn senate chamber and those senators already gray probably will get bald.

For years and years and years the salesmen have labored diligently to present—so to speak—advertisements to the outward appearance of the Senate. Now it seems to have been in vain.

Whoever heard of an august senator doing a Daniel Webster for the enlightenment of his more august colleagues in his shirt-sleeves?

But that is just exactly what Senator Johnson, Minnesota's junior senator, may do.

Most of the senators are lawyers or professional men of some sort—including politicians.

That's just what Johnson isn't.

He's a Swede farmer from "Minneapolis."

He says "Yak" for Jake and he doesn't care who knows it.

During the pre-election campaign he scandalized the innocent politicians by speaking in his shirt-sleeves and minus his collar.

Senator Brockhoff of Iowa, another radical, refuses to wear evening clothes and showed utter disregard

for the feelings of his colleagues when he threatened to take his seat clad in his farm overalls.

He never carried out his threat, but now with the moral and shirtsleeves support of Johnson he's liable to go through with it.

The Riddle of the Spinning Wheel

By M. E. and T. W. HANSHEW

Being an Exploit in the Career of Hamilton Cleek, Detective
Copyright, 1922, by Doubleday, Page & Co., and published by arrangement
with McClure, New York City.

SYNOPSIS.
In deadly fear of the lives of his father and others in the Duggan home at Ayer's castle, Maud Duggan seeks help from the landlady, Mrs. Narkom. Cleek, under the name of Deland, takes up the attempt to solve the mystery of the Spinning Wheel, which on the night when the old man's human hands start running, invariably a death follows. The head of the house is the old irascible Sir Andrew Duggan, his son by his first wife, a dandy second son, a smooth woman and her son, Cyril. It is believed that the wife is plotting for the death of all in order that her son may inherit the heirloom. The old man states his investigations. He makes a number of acquaintances and finds that Ross, the oldest son, is an electrical expert. He has made his family comfortable with electricity and adding other modern innovations. It is believed that the second wife is attempting to have Ross disinherit him. At a family gathering the elder Duggan is slain while seated in his chair in a moment when the lights go out. Maud Duggan tells Cleek (Deland) about it.

"What 'tne—that's the funniest thing! It's never failed before, except last night, when I found it conveniently ajar," he ejaculated, staring up at the sky. "Unlucky, perhaps. I would have failed last night, too. There's no knowing what the wife is plotting. But Miss Duggan assured me positively that the thing had never been stopped. But if it had been stopped for this very happening last night, to silence the approach of an unwanted visitor, what's to prevent 'em from swaddling the clapper up—and not had time to undo it again? And yet, when the Inspector came it rang all right. Now that the theory won't hold water, my friend."

"What's that you're mumble about, Cleek?" threw in Mr. Narkom at this juncture. "Clapper swaddled up? You surely don't think the bell's been stopped for any purpose?"

"No—simply project the sensitive ears of the housekeeper," threw back Cleek with a contemptuous laugh, and then whirled around to give him an abrupt hug by the shoulder. "Forgive me, old friend. My tongue scampers ahead of my heart sometimes, which is a very poor trait for a policeman to possess. What I mean to say is simply this: Up to yesterday that bell rang—even when we came here for the first time—for I have the evidence of my own ears to prove it. And now—it doesn't ring. So what's prevented it? I'm going up to see."

"Cleek, my dear fellow!—to climb that height! And in daylight, too!"

"What's the harm? say I!—if you keep watch and tell me of approaching visitors. Here goes! Keep your eyes peeled upon the high-road, Mr. Narkom, because it would do to see 'em 'kern, and there one approaches, who's whistling 'God Save the King,' and I'll slip into a hiding-place somewhere until the coast's clear. And don't tell any strangers who you are, will you?"

Mr. Narkom acceded to all these requests with a quick nod, took up his post by the gateway leading out upon the high-road, and let his eyes travel backward now and again at Cleek's nimble, crawling figure climbing steadily up the sides of the huge gates, like a lizard upon a wall. Up, up, up he went, scaling the height and clinging here and there to the twists of iron and bronze that made an easy foothold—until, just as the sun was setting, he was standing abreast of the enormous figure and looking up into its great face, with the bell dangling from the bar of iron upon which he stood, he heard the sound of "God Save the King" floating up to him in Mr. Narkom's whistle, darted quickly through the legs, and drew himself up against the back of him and hoped for luck. The sound of two men's voices—and one of them the Superintendent's—reached him where he stood upon the narrow ledge. He recognized the other as that of the bellfitter, James Tavish, whom he had encountered upon the high-road only yesterday.

Mr. Narkom dallied with him for so long, passing the time of day and

Mr. Narkom dallied with him for so long, passing the time of day and

keeping watch, that Cleek, with his

hand held high, and the bell hanging from the bar of iron upon which he stood, he heard the sound of "God Save the King" floating up to him in Mr. Narkom's whistle, darted quickly through the legs, and drew himself up against the back of him and hoped for luck. The sound of two men's voices—and one of them the Superintendent's—reached him where he stood upon the narrow ledge. He recognized the other as that of the bellfitter, James Tavish, whom he had encountered upon the high-road only yesterday.

LATEST MARKET REPORT

GRAIN

Chicago Review.

Chicago.—Wheat underwent a material setback in price during the week, but buyers held out for a sharp decline in Liverpool quotations and of weakness in the New York stock market. Favorable weather for the spring crop, and the market held close to the initial range.

On the other hand, hedging pressure was only moderate. Opening prices, which ranged from \$4.90 to lower, were followed by additional downturns before the decline was checked.

Subsequently, despite exceptional smallness of wheat supplies, the market held close, but suffered an additional decline and as a result of persistent commission house selling and enlarged hedging sales, the market closed 10¢ lower with Sept. 63@\$4.70, and Dec. 31@\$4.60.

Owing to scarcity of immediate supplies, corn equaled the wheat in high price, but held its initial decline.

After opening at 76@\$4.76@4c, the market held close to the initial range.

Later the market moved slightly higher to record for the season, 87@\$4.76. Then all deliveries receded with wheat and as a result of profit-taking sales. The close was unsettled but held close to the initial range.

Oil was sympathized with wheat weakness. Starting at 34¢ off to a shade up, Sept. 35¢ prices later tended to sag.

Shortwinters in the value of hogs weakened the provision market.
